

Welcome to a new week!

<p>Reading</p>	<p>Go to Scholastic News: https://sn2.scholastic.com/</p> <p>Log in with the code: (coatzoo5787)</p> <p>Scroll down to the April 2020 section and choose <u>This Plant Stinks!</u></p> <ol style="list-style-type: none">1) Read the magazine2) Point out some of the text and graphic features (title, pictures, captions, graphs etc.) to someone at home and explain how they are important or share important information.3) Answer the questions on the last page.4) Extend the lesson with the videos, dance break, vocabulary slideshow, and build a plant game
<p>Writing</p>	<p>Since Wednesday is Earth Day, brainstorm a list of things you can do to help the earth. Examples: Recycle, turn the lights off when you leave a room to conserve energy, etc. Tell</p>

	<p>someone at home how these ideas are helpful and see if they have ideas that you could add to your list. Save this list. You will be using it for the rest of the week.</p>
Math	<p>Watch Ms. Preston's video on measurement using this link- https://www.youtube.com/watch?v=TqkBCcDd1yA</p> <p>Then, look at the attached picture and tell someone what she did wrong.</p> <p>Next, find something that you write with (it can be a pen, pencil, marker, crayon, or anything) and measure it with the end of your finger, like Ms. Preston does in the video. Write down how many finger tips your writing utensil is. Make sure to include the unit when you write it down.</p>
Activity	<p>Choose two songs to listen to- one fast song and one slow song. Do the two different songs make you feel differently? How so? Tell someone you live with.</p>

Reading	<p>Go to Scholastic News: https://sn2.scholastic.com/</p> <p>Log in with the code: (coatzoo5787)</p> <p>Scroll down to the April 2020 section and choose <u>Beach of Glass</u></p> <ol style="list-style-type: none">1) Read the magazine2) Point out some of the text and graphic features (title, pictures, captions, graphs etc.) to someone at home and explain how they are important or share important information.3) Answer the questions on the last page.4) Extend the lesson with the videos, vocabulary slideshow, and Beach of Glass game
Writing	<p>This week you will be using your list of ways to help the Earth to write 3 paragraphs. Today, you can start your writing assignment. Write your opening paragraph. Include a topic sentence, a</p>

	few of your ideas, and reasons why they are helpful. Don't forget to indent, capitalize, punctuate, and include lots of detail.
Math	Look at the second attached picture. What did Ms. Preston do wrong this time? (hint: if you can't remember, watch the video from yesterday) Find a spoon or a fork. Use it to measure a door in your house. How many spoons/forks tall is the door? Write down your answer (make sure to include the units).
Activity	Create a list of things that bring you joy: 3 things that you see. 2 things that you can hear. 1 thing that you can hold in your hands.

Practice Mindfulness	<p>Practice deep breathing. Breathe in for a count of four, hold your breath in for seven, breathe out for eight.</p> <p>If you like guided mindfulness, you can try one from gonoodle.com. Parents can sign up for a free account.</p>
Connections to Writing	<p>Happy Earth Day! If possible, try to do some of the ideas from your list today.</p>
P.E	<p>This is an activity from Miss Christopher. Pick 5 animals. Move and make noises like the animals you choose.</p>
Exercise	<p>Choose any type of exercise you enjoy. You can walk, run, do yoga, jumping jacks, or try www.gonoodle.com videos if you need some inspiration.</p>
Thankfulness	<p>Go to each person you are living with and tell them one reason you are thankful for them and why.</p>

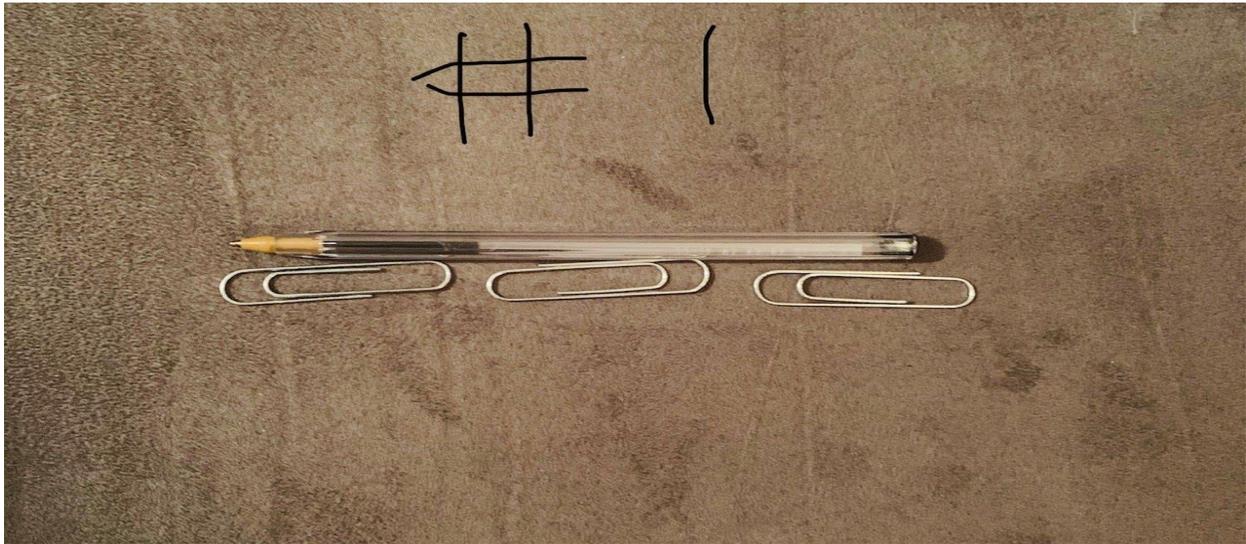

<p>Reading</p>	<p>Go to Scholastic News: https://sn2.scholastic.com/</p> <p>Log in with the code: (coatzoo5787)</p> <p>Scroll down to the April 2020 section and look at <u>This Plant Stinks!</u> and <u>Beach of Glass</u></p> <p>1) Compare and Contrast the two articles. How are they alike? How are they different? You can answer this in any format you choose including writing paragraphs, creating a venn diagram, or lists. You choose!</p>
<p>Writing</p>	<p>Today, you can continue your writing assignment. Write your second paragraph. Include a topic sentence, a few of your ideas, and why they are helpful. Don't forget to indent, capitalize, punctuate, and include lots of detail.</p>
<p>Math</p>	<p>Ms. Preston just can't get it right! What did she do wrong in the third picture? Tell someone at home. Next, use the end of your thumb to measure your favorite toy or stuffed animal (like Ms. Preston does in the video). This time, please tell your teacher how many thumb tips tall your favorite toy is. We will use these data for an activity next week :)</p>
<p>Activity</p>	<p>Draw a picture of one of your happiest memories.</p>

Reading	Read for fun! There is no written assignment today. Just sit down and enjoy reading something you choose. You can lay in the sun, on your couch, sit at a table, or build a fort with pillows and blankets!
Writing	Today, you can finish your writing assignment. Write your third paragraph. Include a topic sentence, a few of your ideas, and why they are helpful. Don't forget a closing! Remember to indent, capitalize, punctuate, and include lots of detail. Share your writing with someone at home. You could even take a picture and share it with your teacher! ☺
Math	IT'S A MEASURING PARTY! How many items can you measure? Look back at Ms. Preston's pictures and make sure you haven't made any of her mistakes. You can use either your fingers like Ms. Preston showed you in the video, OR a paperclip, a crayon- whatever you can make work! Be creative! What's the longest thing you can measure? What's the shortest thing you can measure?

	Make sure to record your findings and write the units (that means what you measured with!)
Activity	Run in place for 30 seconds, Do jumping jacks for 30 seconds, Run in place for 30 seconds.
